

3rd annual

Bobbo's Walk for Young Hearts

Sunday, May 12, 2013

A 501(c)(3) charitable organization set up in the memory of Robert "Bobbo" Regalado. Robby died suddenly from cardiac arrest due to undiagnosed Hypertrophic Cardiomyopathy or Athlete's Heart when he was only 15 years old. Our mission is to raise awareness and combat this silent killer to eliminate these preventable deaths.

Our third annual walk-a-thon will be held on Sunday, May 12, 2013, in Burbank, IL. This is a 4-mile walk starting and finishing at the Reavis High School Football Field located at 77th St. and Merrimac.

Profits from the walk will go towards sponsorship of EKG screenings for high school students and donations of portable AED's to local schools and youth sport organizations. Last year's proceeds sponsored an EKG Screening where 7 local high school students were identified with a potentially life threatening heart condition.

Walk-a-thon check in begins at 7 am with kick off beginning at 8 am.

For registration forms and more information contact [Laura Regalado at bobbosfund@gmail.com](mailto:laura_regalado@bobbosfund@gmail.com) or like our page on Facebook (Bobbo's Fund for Young Hearts). You can also register easily online at www.bobbosfundforyounghearts.com

There will be a raffle for all registered walkers this year. Also, please register early to guarantee your walk-a-thon t-shirt.
